FICTIONAL SAMPLE RECORD - NOT A REAL PATIENT

RESIDENTIAL TREATMENT PROGRAM - PSYCHIATRIC PROGRESS NOTE
Youth: Jordan Avery (fictional) Date: 08/02/2024
Clinician: Sam Ortiz, PMHNP (fictional)

Jordan was seen for monthly medication management. Since admission to the residential program on 04/10/2024 staff report four incidents of physical aggression toward peers, most recently on 07/28/2024, and one AWOL attempt on 06/15/2024 when he left campus and was returned by staff within an hour. He reports sleeping about six hours a night. Sertraline 25 mg daily was started on 05/01/2024 and increased to 50 mg daily on 06/01/2024 for PTSD symptoms; he reports fewer nightmares. Guanfacine was changed to guanfacine ER 2 mg at bedtime on 05/01/2024. He denies current suicidal ideation. No self-harm since admission. Jordan has started vaping nicotine with peers on campus, about twice a week, per his report.
